Licensing declaration:

Please check one of the following statements:

- 1. The patent holder does not believe that it holds patents that are essential to the implementation of any SCTE standards.
- 2. The Patent Holder will grant a license to an unrestricted number of applicants on a worldwide, non-discriminatory basis and on fair and reasonable terms and conditions solely to use the patented material necessary in order to manufacture, use, and/or sell implementations of the named SCTE standard.
 Note: Negotiations of such licenses are left to the parties concerned and are performed outside of the national and international standards organizations.
- 3. The patent holder is unwilling to grant licenses in accordance with the provisions of 2 above.
- If box 2 is checked, please also check here if the Patent Holder is willing to license without compensation.
- If box 2 is checked, please also check here if the Patent Holder's willingness to license is conditioned on reciprocity. Reciprocity means that, with respect to prospective licensees that have one or more patents or patent claims that also are necessary for the implementation of the same standard, the Patent Holder shall only be required to license such prospective licensees if such prospective licensees will commit to license their essential patent(s) or patent claim(s) for implementation of the same standard under reasonable and non-discriminatory terms and conditions.
