In the wake of the Freedom Hosting exploit, I think we should reevaluate our threat model and update our security to better protect ourselves against the real threats that we face. So I wrote this guide in order to spark a conversation. It is by no means comprehensive. I only focus on technical security. Perhaps others can address shipping and financial security. I welcome feedback and would like these ideas to be critiqued and expanded.

As I was thinking about writing this guide, I decided to take a step back and ask a basic question: what are our goals? I've come up with two basic goals that we want to achieve with our technical security.

1. Avoid being identified.
2. Minimize the damage when we are identified.

More Words of Wisdom

===Safe Behavior===

In some cases, the technology we use is only as safe as our behavior. Encryption is useless if your password is "password". Tor is useless if you tell someone your name. It may surprise you how little an adversary needs to know about you in order to uniquely identify you. Here are some basic rules to follow:

Don't tell anyone your name. (obv)

Don't describe your appearance, or the appearance of any major possessions (car, house, etc.).

Don't describe your family and friends.

Don't tell anyone your location beyond a broad geographical area.

Don't tell people where you will be traveling in advance (this includes festivals!).

Don't reveal specific times and places where you lived or visited in the past.

Don't discuss specific arrests, detentions, discharges, etc.

Don't talk about your school, job, military service, or any organizations with official memberships.

Don't talk about hospital visits.

In general, don't talk about anything that links you to an official record of your identity.

Limited offer: Get 14 grams with this listing.

Lab tested. Mixed with the purest fentanyl HCL and butyr-fentanyl.

Blended in a mixer with a V mixer. And other practices performed to make product as homogeneous as possible.

If you need your product stronger or weaker, just ask. But don't be a new customer of mine and ask for it to be stronger. It's already pretty fucking strong. This isn't one man's opinion, or one group of friends opinion, this is people from around the country reporting back.

Made with Mannitol.

B.O.G.O.F = Buy One Get One Free

CURRENTLY BUY ONE GET ONE FREE. HOW LONG WILL THIS LAST? I DON'T KNOW. BUT FOR THE PRICE I'M SELLING IT FOR, IT'S SILLY NOT TO BUY IT.

2500ug(mcg)/ml
 1 squirt = 250mcg

This may seem ridiculous, but you need to take into consideration bio-availability; insufflation compared to oral, compared to intradermal injection, etc.

Extremely potent opioid. This is a connoisseur's product, not intended for newbies and thick people, and/or dickheads.

Work your way up. Stay safe, have fun - all at great prices.

If you'd like tracking on this, or any combined order, find the TRACKED SHIPPING listing and add that to your cart. It's \$5 for tracking and insurance.

If you have a problem with PGP, you can use privnote.com to send me your address.

So here's what I'm going to do for you fine people. We all have varying tolerances; what could give me a nice little high could knock someone on their arse for half a day. This is why if you've placed an order with me, and want to place another but want it stronger (or weaker, to enjoy in a more pleasurable way and not a more intense way,, or for whatever reason) I will increase the concentration at no extra charge. So if you place an order and find you need to take more than you'd usually like to, message me to let me know and we'll find the perfect, custom concentration for you. I will know if you're asking me to increase concentration so you can cut and sell more - don't be a cheapskate. The stuff is perfect as it is, and it's cheap enough for you to make a killing. Cut it 10x over, I don't care, but don't ask me to increase concentration 4 times over so you can cut it 6 times over and still sell it.

I keep postage receipts that show the date/time package was posted and to the location it is posted. Once you've received your order, the receipts are destroyed. This is just to prevent people attempting to get some free gear. Don't be like that, my prices are very fair. And the quality really is unbeatable. On that note, be careful. These aren't something you casually offer to your friends. I sell seriously strong, potent drugs. Seriously strong, but seriously great. Just be smart, and be safe.

UK: : 1 - 2 working days
 Europe: 3 - 5 working days
 Worldwide: 5-7 working days

If shipping worldwide, please wait up to 12 days before contacting about package not being received.

I don't have that many connections yet. My CW is probably the best on here. And if you don't find it to your liking I can decrease or increase the concentration of the active ingredient free of charge. Because my DiamondShine accounts had my vendor status revoked willingly, you can't see my prices.

But if message me on Dream on what the price is for x, I'll happily give it to you.

And remember, it's still buy one get one free, but that won't be for long as some products are irreplaceable.

Off the top of my head:

- 0.5g Chins White \$20
- 1g China White \$35
- 3g China White = \$90
- 7g ?
- 14g China White = \$225

← Similar products/prices as listed in Appendix 3.1

And of course it's buy 1 get 1 free; buy 24g for \$225? It means you get 28g/1oz for just over \$225. And might I add, some of the best china in the world. Don't believe me? Create a new account and ask for a sample:

One for all and all for One

But yes, whether it takes my money, 50/50 partnership

Message me.

I just want to say, please dont linger around the forum, not making any purchases. It takes away from those who deserve it. I will be checking into those who request is.

It's sunday now,by the time Wednesday comes at any time, that's the deadline.

Free gear: 28 grams of China White (check my ratings, it's possibly the best on the market, if not, one of the best, if the other vendors care as much for the product as me.

10 bottles of Fentanyl spray at 2500mcg/ml - It's hella strong now, sometimes people passing out, but if you have a large tolerance, you can ask for more and I won't change any extra.
